

PhaZZer® Enforcer CEW Features & Specifications

Weapon Features

- Power Source: Ion-Lithium Battery: 2 X 3.6v=7.2v/700mAh/Rechargeable/Replaceable
- Battery Indicator Light: located on rear of unit, indicator is green when charged adequately and will turn red when the charge is below 60% which indicates the unit requires recharge
- Approximately 50-75 full duration 5 second shots prior to requiring recharge
- Circuit Shut-Off Feature: After 3 consecutive trigger pulls, each of 5 second duration for an aggregate 15 seconds applied from the CEW into the perpetrator; the circuit will shut down and requires that the safety switch to be reactivated prior to allowing for any further applications into the target.

(There is a psychological benefit from this feature which makes the officer fully aware during an altercation that he/she is cognizant of the amount of force being applied at that given moment. The American Academy of Emergency Medicine issued a Clinical Proactive Statement advising physicians that they should consider additional evaluation and treatment for individuals who experienced a CEW application of longer than 15 seconds. That fact is that there is an increased risk in exposing the human body to more than 15 seconds in aggregate per application in a 24 hour period. In the heat of the moment it is difficult for an officer to be counting the number of times which the CEW may have been deployed into the body. This feature is there as a reminder to assist the officer in determining what medical treatment may be needed for the perpetrator.

- Arming Safety Laser Activation Switch: On rear of unit for easy thumb access and seamless activation (Red)
- Two independent ambidextrous activation switches on each side (Yellow)
- Three Finger Placement Non-Slip Textured Pistol Grip
- Air Gap: Electrical charge can penetrate up to two cumulative inches of clothing
- Back-up Drive Stun function is operable when the dart cartridge is not installed or when expired cartridge is inserted.
- Rail Mount for Optional Weapon Cam
- Optional Dataport
- Housing: High Impact ABS Plastic
- AC Adaptor: 100V~240V/50Hz ~ 60Hz/180mA

Technical Specifications

- Operation Current: 0.002 Ampere (A) 2.0mA average
- Peak Open Circle Arcing Volts: 60,000 approx.
- Wave Form: Pulse Technology
- Pulse Rate: 15-18 pulses/per second (PPS)
- Pulse Duration: 120 microseconds

- Outputs are: +/- 20%
- Pulse Duration: 2 μ s
- Red Laser Sight: 650NM
- High Intensity 160 Lumen 3W LED Light: up to 45m
- Temperature: -20°C ~ 50°C
- Relative Humidity: 10% ~ 85%
- AC Adaptor: 100V~240V/50Hz ~ 60Hz/180mA

Measurements

- Total Weight (batteries included): 448g
- Dimensions: 15cm (L) x 9cm (H) x 3cm (W) without Dart Cartridge
- Ammunition Cartridge Dimensions: 2.5cm (L) x 2.5cm (H) x 3.5cm (W)

Additional Information

- PhaZZer® A Registered Trademark with the USPTO (available upon request)
- DOJ Letter by ATF Classifying PhaZZer CEWs as Non-Firearm (available upon request)
- Liability Insurance \$2 million aggregate and \$1 million per incident
- CE Certification (Testing Approval for Europe available upon request)
- PhaZZer User/Instructor Certification Training Available (training@phazzer.com for details)

Box Content Accessories and Options

- PhaZZer Enforcer CEW (Included)
- 7.2v Ion-Lithium Rechargeable/Replaceable Battery Pack (Included)
- PhaZZer 21' Dart Pro Cartridge: LIME GREEN Cover
- PhaZZer 30' PepperBall® Cartridge: RED Cover (Included)
- PhaZZer 8' Pepper Powder Cartridge: PINK Cover
- PhaZZer 30' Hard Rubber Ball Cartridge: BLACK Cover
- PhaZZer 30' Mark Paint Ball Cartridge: GREEN Cover
- PhaZZer Enforcer AC Charging Adaptor (Included)
- PhaZZer Nylon Belt Holster (Included)
- PhaZZer Enforcer Round Plug for PAL Electrical System (Included)
- PhaZZer User/Instructor Certification Training Available (email training@phazzer.com for details)
- PhaZZer Operator's Manual & Warranty Card
- PhaZZer Leather Duty Belt Holster with Cartridge Slot
- PhaZZer Leather Duty Belt Holster without Cartridge Slot
- PhaZZer Clam Shell Duty Belt Holster

Note: All PhaZZer products come with a one year manufacturer's warranty and limited lifetime warranty.
